Jeremy Voigt

NC State Student | Sport Management Major | Business
Administration Minor | Exploring How AI is Shaping Event Strategy &
Business

Waxhaw, North Carolina, United States

Summary

I am a Sport Management major at NC State, minoring in Business Administration. I have strong customer-service, communication, and problem-solving skills, and I enjoy roles where I can work with people, build relationships, and help create positive experiences.

I am especially interested in opportunities in business development, client relations, risk management, and corporate events—areas that combine teamwork, communication, and relationship-building in fast-paced environments.

I am also interested in how AI is reshaping business and how companies use technology to improve decision-making and customer experience.

At NC State, I am involved in Sigma Nu, where I have gained leadership experience and learned how to work effectively with others. I am excited to continue growing my skills and explore internships that connect my interests in business, people, and real estate.

Experience

Topgolf
