Luke Marmarou

Student at West Virginia University
Morgantown, West Virginia, United States

Summary

I am a Finance student at West Virginia University (December, 2027) currently serving as a Military Police Officer in the Army National Guard. My background is built on discipline, high stakes, and the ability to communicate clearly when things get complicated. In the National Guard, I've learned that integrity isn't just a buzzword, it's about making sure the people, the equipment, and the mission are all handled correctly. Whether I'm on duty or in the classroom, I pride myself on my ability to understand people and use my words to solve problems before they escalate. I'm a fast learner who knows how to balance a full-time course load with the responsibilities of military service. My long-term goal is to become an Army Aviator, which requires a high level of technical skill and mental toughness. I am looking for a civilian job where I can bring that same "mission-first" work ethic and leadership to a professional team.

Experience

West Virginia Army National Guard
Military Police Officer
September 2024 - Present (2 years 2 months)
Morgantown, West Virginia, United States

Versatile Military Police professional experienced in physical security, investigative procedures, and regulatory compliance. Expert in conducting site security surveys, managing access control, and performing crisis intervention in high-stress environments. Skilled in enforcing complex legal codes and maintaining detailed documentation. Committed to integrity, situational awareness, and the protection of organizational interests.
